Independent Auditor's Report

Honorable Mayor and
Members of the City Council
West Point, Georgia

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component opinion units, each major fund, and the aggregate remaining fund information as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise West Point, Georgia's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

West Point's Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinions the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the aggregate discretely presented component opinion units, each major fund, and the aggregate remaining fund information of The City of West Point as of December 31, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, beginning on page three, the pension information on page forty-eight, and the budgetary comparison be presented to supplement the basic financial statements, beginning on page fifty-one. Such information, although not a part of the basic financial statements, is required by the Governmental Auditing Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of West Point's basic financial statements. The Statement of Revenues, Expenditures and Changes in Fund Balances Budget and Actual – Non Major Funds, Combining and Individual Fund Statements and Schedules – Governmental and Proprietary Funds are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Statement of Revenues, Expenditures and Changes in Fund Balances Budget and Actual – Non Major Funds, Combining and Individual Fund Statements and Schedules – Governmental and Proprietary Funds is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Revenues, Expenditures and Changes in Fund Balances Budget and Actual – Non Major Funds, Combining and Individual Fund Statements and Schedules – Governmental and Proprietary Funds is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 22, 2019 on our consideration of West Point's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering West Point's internal control over financial reporting and compliance.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to City of West Point, Georgia's basic financial statements. The City's basic financial statements consist of the following elements:

Government-wide Financial Statements

Government-wide financial statements provide both long-term and short-term information about the City's overall financial condition. Changes in the City's financial position may be measured over time by increases and decreases in the Statement of Net Positions. Information on how the City's net positions changed during the fiscal year is presented in the Statement of Activities.

Fund Financial Statements

Fund financial statements focus on individual parts of the City, reporting the City's operations in more detail than the government-wide financial statements. Fund financial statements include the statements for governmental and proprietary funds.

The largest component of the City's net positions is its investment in capital assets (e.g. land, infrastructure, buildings, equipment, and others), less any related debt outstanding that was needed to acquire or construct the assets. The City uses these capital assets to provide services to the citizens and businesses in the City; consequently, these net positions are not available for future spending. Restricted net positions represent resources that are subject to external restrictions, constitutional provisions, or enabling legislation on how they can be used. The remaining portion of net positions is unrestricted, which can be used to finance government operations.

Governmental Activities

During the year ending December 31, 2018, the net positions of the government activities increased \$929,732 or 4.74%. Total revenues for FYE 2018 decreased by \$313,555 or 4%. The decrease was due to a capital grants contributions. Total expenses for governmental activities for FYE 2018 increased by \$334,869 or 5.3%. The main reason for the increase in expenses in FYE 2018 was due to an increase in expenses in the Administrative and Public Service, and Public Works departments.

City of West Point
Management's Discussion and Analysis
For the fiscal year ended December 31, 2018

Approximately 14.03% of the City's revenues came from property taxes and approximately 11.4% came from other taxes. Approximately 69.4% of the City's revenues came from charges for services and approximately 4.9% came from grants and other revenues. Although a majority of the City's expenses are financed by property taxes and other taxes, the City continues to rely heavily on revenues from charges for services to fund its budget. The City's expenses cover a range of services with 20.50% related to public safety, 4.8% related to public works, 16% related to general governmental activities.

Program Expenses and Revenues for Governmental Activities

Table 4 (shown below) presents program expenses and revenues for governmental activities for the year ended December 31, 2018 and 2017.

The cost of all proprietary (business-type) activities this year was \$10,331,509 and additionally the business-type activities earned \$1,176 in interest from idle cash and investments. Within the total business-type activities of the City, these activities reported a \$1,983,587 operating gain.

City of West Point
Management's Discussion and Analysis
For the fiscal year ended December 31, 2018

Financial Analysis of the City's Funds

The focus of the City's governmental funds is to provide information on near-term inflows and outflows and the balance of resources available for spending. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the close of the year, the City's governmental funds reported a combined ending fund balance of \$7,528,121 with \$2,409,487 reported as restricted, \$191,034 reported as assigned, and \$4,925,131 as unassigned fund balance.

The General Fund is the operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$4,925,131 and total fund balance was \$5,118,634. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance to total fund expenditures. Unassigned fund balance represents 76.6% of total General Fund expenditures, while total fund balance represents 79.61%. The net change in the General Fund's fund balance for the year ended December 31, 2018, was an increase of \$279,346 or 5.77%.

General Fund Budgetary Highlights

During the year, the City revised the budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; 3) increases in appropriations that become necessary to maintain services. The year ended December 31, 2018 budget was amended.

The actual operating revenues of the General Fund did not exceed the final budgeted amounts.

The actual operating expenditures of the General Fund did not exceed the final budgeted amounts.

Capital Asset and Long-term Debt Activity

At December 31, 2018, the City reported \$17,015,116 in capital assets for governmental activities and \$34,909,252 for business-type activities. Major capital asset transactions during the year were a real estate purchases, recreational facilities, street paving, and fire equipment. Refer to Note 4-D to the financial statements for additional information on capital assets.

Economic Factors and Next Year's Budget and Rates

As with the rest of the State of Georgia, City of West Point's economic climate for FYE 2018 is thriving. The City of West Point is experiencing more than average growth with the local college expansion and new industrial investments in the community aiding in the creation of additional employment opportunities. The Special Local Option Sales Tax continues to assist the City in funding much needed capital outlay projects such as resurfacing, construction of recreation and plant facilities.

The City's revenues continue to increase over the prior year making the opportunities possible for economic growth, downtown development, increased housing and employment. The City continues to strive to make West Point a place to Work, Live and Play.

Difficult choices have been made as the FYE 2018 budget was developed, and it represents a balance between available resources and needs. This balance was achieved using the objectives and priorities established by the Council of the City of West Point.

**Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of
Governmental Funds to the Statement of Activities**
For the Year Ended December 31, 2018

	2018	2017
Net Change in Fund Balances - All Governmental Funds	\$ 460,681	\$ 1,001,514
Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:		
Governmental Funds Report Capital Outlay as Expenditures		
However, in the Statement of Activities the Cost of those Assets is Allocated over their Estimated Useful Lives and Reported as Depreciation Expense.		
Capital Outlay	657,457	914,851
Depreciation	< 918,610>	< 800,048>
Payment of the Current Pension Contribution is an expenditure in the governmental funds, but is considered a deferred outflow on The Statement of Net Positions and is not reported on the Statement of Activities		
	170,483	220,038
Payment of the Current Pension Contribution by the State Of Georgia on behalf of the GFP and POAB		
	Not Available	38,846
Capital Lease Proceeds provide Current Financial Resources to Governmental Funds, but Issuing Debt Increases Long-Term Liabilities in the Statement of Net Positions. Repayment of Capital Lease Principal is an Expenditure in the Governmental Funds, but the Repayment Reduces Long-Term Liabilities in the Statement of Net Positions.		
Principal Retirements	657,119	824,395
Principal from Long-Term Debt	-----	< 54,425>
Amortization of Bond Premiums (a decrease in interest expense)	36,170	36,170
Some Expenses Reported in the Statement of Activities do not Require the use of Current Financial Resources and, Therefore, are not Reported as Expenditures in the General Fund.		
Pension Expense - (GMEBS)	< 133,568>	< 206,393>
Pension Expense - (GFP)	Not Available	< 35,167>

Notes to the Basic Financial Statements

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

The City of West Point, Georgia (the “City”), which was incorporated in 1828 under the provisions of the State of Georgia, has a population of 3,382 living within an area of 11.7 square miles. The City is a Georgia municipal corporation and operates under a charter adopted in 1900, and is a City Administrator/Mayor and Council form of government.

The City provides the following services as authorized by its charter: public safety (police and fire), highways and streets, housing and urban development, sanitation, recreation, natural gas, electricity, water and sewer, and general administrative services.

Note 1 – Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The City also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities at the government-wide financial reporting level and to its enterprise funds at the fund reporting level, provided they do not conflict with or contradict GASB pronouncements.

The most significant of the City’s accounting policies are described below.

1-A. Reporting Entity

The reporting entity is comprised of the primary government, and component units and other organizations that are included to ensure that the financial statements are not misleading.

The component unit is a legally separate organization for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization’s governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations; (2) the City is legally entitled to or can otherwise access the organization’s resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; the City is obligated for the debt of the organization.

The discretely presented component unit generally is reported only at the government-wide financial reporting level.

The component unit columns included on the government-wide financial statements identifies the financial data of the City’s discretely presented component unit. It is reported separately to emphasize that it is legally separate from the City.

The following component units are discretely presented in the reporting entity:

The West Point Development Authority, (the “Authority”), consists of a board appointed by the governing authority of the City. The Authority promotes the industrial and economic development of the City. Although it is legally separate from the City, the Council appoints all of the Authority’s board members and provides a substantial portion of the Authority’s funding. However, the City does not control the operations of the Authority. The Authority is reported as a component unit in the City’s financial statements due to its financial dependence on the City. Separate financial statements are not prepared by the Authority; therefore, the financial statements can be obtained by writing to the City of West Point, P.O. Box 487, West Point, GA 31833.

The Downtown West Point Development Authority (the “DDA”) consists of a board appointed by the governing authority of the City. The DDA promotes the growth of Downtown area. Although it is legally separate from the City, the Council appoints all of the DDA’s board members and the substantial portion of the DDA’s funding is collected by the City through an additional Downtown Tax Levy. However, the City does not control the operations of the DDA. The DDA is reported as a component unit in the City’s financial statements due to its governing dependence on the City. Separate financial statements are not prepared by the DDA; therefore, the financial statements can be obtained by writing to the City of West Point, P.O. Box 487, West Point, GA 31833.

1-B. Basis of Presentation

The City’s basic financial statements consist of government-wide statements, including a statement of net positions and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

Government-wide Financial Statements – The government-wide financial statements include a statement of net positions and a statement of activities. These statements report financial information for the City as a whole. All funds other than fiduciary activities are included at the government-wide reporting level. Individual funds are not displayed at this reporting level, but the statements distinguish governmental activities, generally supported by taxes and City general revenues, from business-type activities, generally financed in whole or in part with fees charged to external customers.

The statement of net positions presents the financial position of the governmental and business-type activities of the City.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly related to the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges to users of the City's services; (2) operating grants and contributions which finance annual operating activities including restricted investment income; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying to which function program revenue pertains, the determining factor for charges for services is which function generates the revenue. For grants and contributions, the determining factor is to which function the revenues are restricted.

Taxes and other revenue sources not properly included with program revenues are reported as general revenues of the City. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

Fund Financial Statements – During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental, proprietary, and fiduciary funds.

Major individual governmental and enterprise funds are reported in separate columns with composite columns for non-major funds. The fiduciary funds are reported by type.

Fund Accounting – The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses two categories of funds: governmental and proprietary.

Governmental Funds – Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

General Fund – Major Fund - The general fund accounts for all financial resources except those required to be accounted for in other funds. The general fund's fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Georgia.

Capital Projects (SPLOST 2012 Troup Co. and SPLOST 2014 Harris Co.) – Major Fund – These Funds account for the activities carried out by the City from intergovernmental grants and revenues for infrastructure, construction and land acquisition under terms of certain municipal agreements.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

Proprietary Funds – Proprietary fund reporting focuses on the determination of operating income, changes in net positions, financial position and cash flows. Proprietary funds are classified as enterprise funds.

Water and Sewer System Fund – Major Fund - This fund is used for the operation of the City’s water and sewer system which renders services to the residents and businesses located within the City.

Electric Fund – Major Fund - This fund is used to account for the operations of the City’s electric system.

Gas Fund – Major Fund - This fund is used for the operation of the City’s natural gas system.

Sanitation Fund – Major Fund - This fund is used for the operation of the City’s sanitation system.

1-C. Measurement Focus

Government-wide Financial Statements – The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net positions. The statement of activities reports revenues and expenses, including depreciation.

Fund Financial Statements – All governmental funds are accounted for using a flow of current financial resources measurement focus in these financial statements. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, all proprietary fund types and fiduciary fund types are accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net positions. The statements of changes in net position present increases (i.e., revenues) and decreases (i.e., expenses) in net total positions. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, governmental funds use the modified accrual basis of accounting and fiduciary funds use the accrual basis of accounting. Proprietary funds use the accrual basis of accounting on both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue (inflows), and in the presentation of expenses versus expenditures.

Revenues – Exchange Transactions – Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the City, the phrase “available for exchange transactions” means expected to be received within twelve months of year-end.

Revenues – Non-exchange Transactions – Non-exchange transactions in which the City receives value without directly giving equal value in return, include sales taxes, property taxes, grants, and donations. On an accrual basis, revenue from sales taxes is recognized in the period in which the taxable sale takes place and on the modified accrual basis, it is recognized in the year received (i.e., when considered available). Revenue from property taxes is recognized in the fiscal year for which the taxes are levied (Note 4-C). Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, interest and federal and state grants.

Deferred Revenue – Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

On governmental fund financial statements (i.e., on the modified accrual basis), receivables that will not be collected within the available period have been reported as deferred revenue (i.e., they are measurable but not available) rather than as revenue.

Grants and entitlements received before the eligibility requirements are met (e.g., cash advances) are recorded as deferred revenue.

Expenses/Expenditures – (including Prepaid) On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable. Expenditure recognition for prepaids in governmental funds is recognized during the benefiting periods.

Deferred Inflow/Outflow of Resources – Deferred inflow and outflow of resources are certain items that were previously classified as Assets or Liabilities, but do not meet the criteria for an asset or liability such as deferred revenue defined above and deferred gains and losses on bond debt refunding.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Georgia Municipal Employees' Benefit System (GMEBS) and additions to/deductions from (GMEBS) fiduciary net position have been determined on the same basis as they are reported by GMEBS. The City of West Point's employer contributions are recognized when due and the City of West Point has a legal requirement to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of GMEBS. Investments are reported at fair value.

For purposes of measuring the net pension expense, information about the fiduciary net position of the Firefighters' Pension Fund and the Georgia Peace Officer's Annuity and Benefit Fund and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by the Firefighters' Pension Fund and the Georgia Peace Officer's Annuity and Benefit Fund. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

1-E. Assets, Liabilities and Fund Equity

1-E-1. Cash, Cash Equivalents, and Investments

Cash and cash equivalents include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

Investments are stated at fair value based on quoted market prices.

Georgia law authorizes the City to invest in the following type of obligations:

- Obligations of the State of Georgia or of any other states
- Obligations of the United States Government
- Obligations fully insured or guaranteed by the government or governmental agency
- Obligations of any corporation of the government
- Prime bankers' acceptances
- The State of Georgia local government investment pool (i.e., Georgia Fund I)
- Repurchase agreements
- Obligations of the other political subdivisions of the State of Georgia

Any investment or deposit in excess of the Federal Deposit Insurance Corporation (FDIC) insured amount must be secured by 110% of an equivalent amount of State or U.S. obligations. Investments are stated at fair value based upon quoted market prices.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

1-E-2. Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable.

1-E-3. Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental and business-type activities columns of the government-wide statement of net positions, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

1-E-4. Consumable Inventories

On the government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as expenditure in the governmental fund types when consumed.

1-E-5. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net positions but does not report these assets in the governmental fund financial statements. Capital assets utilized by enterprise funds are reported both in the business-type activities column of the government-wide statement of net positions and in the enterprise funds’ statement of net positions.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The City maintains a capitalization threshold of two thousand five hundred dollars. The City’s infrastructure consists of roads, bridges and water and sewer lines. Improvements (i.e., betterments) to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset’s life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise funds is capitalized.

All reported capital assets are depreciated except for land, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City’s historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Land Improvements	20 years	20 years
Buildings and Plant*	40 years	40 – 50 years
Machinery, Equipment & Furniture	7 – 12 years	7 – 25 years
Vehicles	7 – 25 years	7 – 25 years
Infrastructure	25 – 50 years	25 – 50 years

*Includes Water and Sewer lines.

1-E-6. Compensated Absences

Neither vacation nor sick leave benefits are paid at termination neither does the unused vacation rollover to the subsequent year. Therefore, compensated absences are not accrued.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

1-E-7. Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds.

1-E-8. Bond Premiums, Discounts and Issuance Costs

On the government-wide statement of net positions and the proprietary fund type statement of net positions, bond premiums and discounts are netted against bonds payable and bond issuance costs are reported as current charges. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are netted against the bond debt (interest) and amortized over the life of the bonds using the interest method or the straight line method, if a material misstatement is not created.

At government fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued. Bond issuance costs are reported as an expenditure.

1-E-9. Fund Equity

Fund equity at the governmental fund financial reporting level is classified as “fund balance.” Fund equity for all other reporting is classified as “net positions.”

Fund Balance – Generally, fund balance represents the difference between the assets and liabilities under the current financial resources measurement focus of accounting. In the fund financial statements, governmental funds report fund balance classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- **Nonspendable** – Fund balances are reported as nonspendable when amounts cannot be spent because they are either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or contractually required to be maintained intact.
- **Restricted** – Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- **Committed** – Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Council through the adoption of a resolution. Only the City Council may modify or rescind the commitment.
- **Assigned** – Fund balances are reported as assigned when amounts are constrained by the City’s intent to be used for specific purposes, but are neither restricted nor committed. Through resolution, the City Council has authorized the City Manager to assign fund balances.
- **Unassigned** – Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund. Negative unassigned fund balances may be reported in all funds.

Flow Assumptions – When both restricted and unrestricted amounts of fund balances are available for use for expenditures incurred, it is the City’s policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City’s policy to use fund balance in the following order: 1) committed, 2) assigned, and 3) unassigned.

Net Positions – Net positions represent the difference between assets and liabilities in reporting which utilizes the economic resources measurement focus. Net positions net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used (i.e., the amount that the City has spent) for the acquisition, construction or improvement of those assets. Net positions are reported as restricted using the same definition as used for restricted fund balance as described in the section above. All other net positions are reported as unrestricted.

The City applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

City of West Point, Georgia
Notes to the Basic Financial Statements

For the year ended December 31, 2018

1-E-10. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for water, sewer, electric and sanitation programs. Operating expenses are necessary costs incurred to provide the good or service that are the primary activity of each program.

1-E-11. Non-Operating Revenues and Expenses

Non-operating revenues are those revenues not generated directly from the primary activity of the proprietary funds. For the City, these revenues are interest revenues generated from cash holdings. Non-operating expenses are not considered necessary costs incurred to provide the good or service related to the primary activity of each program. The City's proprietary non-operating expenses are interest expense incurred on the related debt and amortization of a deferred loss.

1-E-12. Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, tap-in fees to the extent they exceed the cost of the connection to the system, or from grants or outside contributions of resources restricted to capital acquisition and construction.

1-E-13. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and the after non-operating revenues/expenses section in proprietary funds. Repayments from fund responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business-type activities column are eliminated.

1-E-14. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

1-E-15. Comparative Data

Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

Note 2 – Changes in Accounting Principles, Fund Reclassifications and Restatement of Equity Balances

Changes in Accounting Principles/Restatement

The City implemented Governmental Accounting Standards Board (GASB) statement 68, Accounting and Financial Reporting for Pensions (an amendment to GASB Statement No. 27) in the fiscal year ending September 30, 2015.

Note 3 – Stewardship, Compliance and Accountability

3-A. Budgetary Information

The City adopts an annual operating budget for the general fund, each special revenue fund and each enterprise fund. A project budget is adopted for each projects fund. The budget resolution reflects the total of each department's appropriation in each fund.

The governmental funds' budgets are adopted on a basis consistent with GAAP, except that outstanding encumbrances at year-end are reported as budgetary expenditures. Enterprise fund budgets are adopted on a basis consistent with GAAP, except that outstanding encumbrances at year-end are reported as budgetary expenses.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is the department level with the following provisions:

- The City Manager may transfer funds from one object or purpose to another within the same department
- The City Council may amend the budget by motion during the fiscal year.

Formal budgetary integration is employed as management control device during the year for all budgeted funds.

3-B. Excess of Expenditures Over Appropriations

The following funds reported expenditures/expenses over appropriations: Appropriated Actual Unfavorable

None

4-B. Receivables

Receivables at December 31, 2018, consisted of taxes, grants, and accounts (billings for user charges).

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

The City of West Point participates in the Revolving Loan Fund Program and currently has one Revolving Loan Outstanding; Johnny's Pizza in the original amount of \$420,000 bearing an annual interest rate of two percent. The loan date began on December 1, 2015 with a monthly payment of \$2,702.74 due to the City for 180 months. The purpose of the loan was to acquire an ongoing business including personal and real property. The balance of the loan receivable at year end is \$343,632.

4-C. Property Taxes and Abatements

Normally, property tax levies are set by the City Council in September of each year for collection in the following fiscal year beginning January 1. Troup County spreads all levies over assessable property. Taxes are levied annually by the City and for the year ended December 31, 2018, the levy occurred on October 7, 2018. Real and personal property taxes are due December 12, 2018. Property taxes receivable become a lien on January 14, 2019 and are recorded in the General Fund usually in November of each fiscal year.

The City of West Point approved the following property tax abatement agreements (on an individual basis) originally as a part of an intergovernmental agreement between Troup County, Harris County and itself. The abatements' main purpose is for economic development and revitalization of the employment industry.

4-H. Pensions Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Plan Description – The City’s defined benefit pension plan, the City of West Point Retirement Plan, provides retirement, disability, and death benefits to plan members and beneficiaries. The City of West Point Retirement Plan is affiliated with the Georgia Municipal Employees Benefit System (GMEBS), an agent multiple-employer pension plan administered by the Georgia Municipal Association. The benefit provisions and all other requirements are established by City ordinance. GMEBS issues a publicly available financial report that includes financial statements and required supplementary information for the City of West Point Retirement Plan. That report may be obtained by writing to Georgia Municipal Association, Employee Benefit Section, 201 Pryor Street, SW, Atlanta, Georgia 30303-3606.

At December 31, 2016, the City reported a liability of \$2,884,066 (allocated to General and Proprietary Funds) for its net pension liability. The net pension liability was measured as of March 31, 2018. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The total pension liability was then rolled forward to the measurement date of March 31, 2016 utilizing update procedures in incorporating the actuarial assumptions. The City’s net pension liability was based on a projection of the City’s long-term future payroll covered by the pension plan, relative to the projected future payroll covered by the pension plan, actuarially determined.

For the year ended December 31, 2018, the City recognized pension expense of \$292,715 (allocated to General and Proprietary Funds). At December 31, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Differences between expected and actual experience	\$ 602,819	\$< 325,458>

Notes to the Basic Financial Statements
For the year ended December 31, 2018

The contributions made subsequent to the measurement date of March 31, 2018 are reported as deferred outflows of resources related to pensions resulting from City contributions and will be recognized as a decrease of the net pension liability in the year ended December 31, 2019. Other amounts reported as deferred outflows/inflows of resources related to pensions will be recognized as pension expense as follows:

Notes to Schedule of Contributions

Valuation Date	The actuarially determined contribution rate was determined as of July 1, 2018 with an interest adjustment to the fiscal year. Contributions in relation to this actuarially determined contribution rate will be reported for the fiscal year ending December 31, 2019.
<i>Methods and assumptions used to determine contribution rates:</i>	
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Closed level dollar for remaining unfunded liability; see Section 5, Exhibit II for additional detail
Remaining Amortization Period	Remaining amortization period varies for the bases, with a net effective amortization period of 11 years
Asset Valuation Method	Sum of actuarial value at beginning of year and the cash flow during the year plus the assumed investment return, adjusted by 10% of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary to be within 20% of market value.
Actuarial Assumptions:	
Net Investment Rate of Return	7.50%
Projected Salary Increases	2.75% plus service based merit increases
Cost of Living Adjustments	0.00%
Retirement Age	See Section 5, Exhibit III for summary of assumption and Section 4, Exhibit 6 for the history of changes to this assumption, if any.
Mortality	See Section 5, Exhibit III for summary of assumption and Section 4, Exhibit 6 for the history of changes to the assumption, if any.
Other information:	See Section 4, Exhibit 6 for the history of changes to plan provisions, if any.

* Entry Age Normal liabilities calculated using ages and service amounts as of July 1, 2017 are used to measure TPL as of March 31, 2017. The balances as of March 31, 2017 constitute measurements of NPL for the fiscal year ending December 31, 2017.

** Entry Age Normal liabilities calculated using ages and service amounts as of July 1, 2018 are used to measure TPL as of March 31, 2018. The balances as of March 31, 2018 constitute measurements of NPL for the fiscal year ending December 31, 2018.

Changes of assumptions

- As a result of the new administrative fee structure approved by the Board, the administrative expense assumption was updated for fiscal years beginning in 2018. See Section 5, Exhibit III for details.
- Amounts reported for the Fiscal Year ending in 2018 and later reflect the following assumption changes approved by the Board in December, 2017 based on the results of an actuarial experience study covering the period to June 30, 2014 to September 30, 2017.
 - The mortality table for disabled participants was changed to remove the two-year set-forward for males and the one-year set-forward for females.
 - The turnover rates were updated to introduce select rates for service less than five years and to reduce the ultimate rate by 15% and to assume no turnover on and after age 55. The select period rates were further constrained to not be less than the ultimate rates.
 - The retirement rates where normal retirement is only available on or after age 65 were changed from the prior assumption of 100% at age 65 to the new assumption of 60% at ages 65 to 69 and 100% at age 70. Where normal retirement is available prior to age 65, the rates were changed from the prior assumption of 100% at earliest unreduced age, but not below age 60, to the new assumption of 10% at ages 55 to 59, 20% at age 60, 25% at age 61, 35% at age 62, 40% at age 63, 45% at age 64, 50% at ages 65-69, and 100% at age 70.
 - The inflation assumption was decreased from 3.25% to 2.75%.
 - The salary increase assumption was changed from select period rates during the first five years of service, followed by age-related rates to an assumption based on new service-related rates. Under the prior assumption, the salary increases ranged from 4.00% to 11.00% and included an inflation assumption of 3.50%. Under the new assumption, the salary increases range from 3.75% to 8.00% and include an inflation assumption of 2.75%.
 - The investment return assumption was decreased from 7.75% to 7.50%.

Benefit changes

- *There have been no changes in benefit provisions since GASB 67/68 implementation.*

Benefit Election: All participants are assumed to elect the life annuity form of payment and the valuation includes the 30 months of guaranteed benefits. On a system-wide basis, the optional forms of payment are essentially actuarially equivalent.

Net Investment Return:

On-going basis: 7.50% - On-going basis, based on long-term expected rate of return on pension plan investments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The difference between the resulting rate and the rate on the ongoing basis is a margin for adverse deviation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Fixed income	20%	2.11%
Domestic equity	45%	6.71%
International equity	20%	7.71%

Social Security Wage Base Decrease: 2.75%
Cost of Living Adjustment: N/A
Administrative Expenses: Base fee - \$9,000
Per active and terminated vested participant - \$66
Per retiree and beneficiary - \$78
Percentage of the market value of assets – 0.06%
Per active participant for the administration of employee contributions - \$18
Per inactive participant for the administration of employee contributions - \$9

Actuarial Value of Assets: Sum of the actuarial value at the beginning of year and the cash flow during year plus the assumed investment return, adjusted by 10 percent of the amount that the value exceeds or is less than the market value at end of year. The actuarial value is adjusted, if necessary, to be within 20% of market value.

Actuarial Cost Method: Projected Unit Credit Cost Method. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service.

Amortization: The amortization of the unfunded actuarial accrued liability is level dollar over 30 years for the initial unfunded accrued liability, 15 years for actuarial gains and losses, 10 years for temporary retirement incentive programs 20 years for other changes to plan provisions, and 30 years for actuarial assumptions and cost methods. The total amortization must be within a corridor of the 10-year and the 30-year amortization of the unfunded/(surplus) actuarial accrued liability. In a year when the 10-year or 30-year corridor applies, the following year, the prior year bases are combined into one 10-year or 30-year base.

Asset Data: GMEBS has supplied all asset data used in the valuation. The market value of assets is based on current values as of three months preceding the valuation date (March 31, 2018) and is assumed to be current through the date.

Participant Data: The primary source of participant data for the current valuation is a census of all participants which was prepared by the employer through GMEBS. The data is typically collected four months prior to the valuation date and assumed to be current through that date.

Changes in Methods and Assumptions: As a result of the new administrative fee structure, the administrative expense assumption changed as follows:

	Current	Prior
Base fee	\$9,000	\$9,000
Per active and terminated vested participant	\$66	\$66
Per retiree and beneficiary	\$78	\$78
Percentage of the market value of assets	0.06%	0.06%
Per active participant for the administration of employee contributions	\$18	\$18 (employees only)
Per inactive participant for the administration of employee contributions	\$9	\$9

Based on the results of an actuarial experience study in September 2017 the following assumptions were changed in this valuation:

- The investment return assumption was reduced from 7.75% to 7.50%.
- The Social Security wages base increase assumption was reduced from 3.25% to 2.75%.
- The inflation assumption was decreased from 3.25% to 2.75%.
- The salary increase assumption was changed from select period rates during the first five years of service, followed by age-related rates to an assumption based on new service-related rates. Under the prior assumption, the salary increases ranged from 4.00% to 11.00% and included an inflation assumption of 3.50%. Under the new assumption, the salary increases range were reduced by .50% and include an inflation assumption of 2.75%.

The following Enterprise funds have been created to provide various services to the general public:

Water and Sewer Fund – established to account for the operation of the City’s water and sewer services.

Electric Fund – established to account for the operation of the City’s electric services.

Gas Fund – established to account for the operation of the City’s natural gas services.

Sanitation Fund – established to account for the operation of the City’s waste collection and disposal services.

The Water and Sewer Fund consists of water and sewer system operations, of which the revenues are pledged against revenue bonds. The Electric Fund consists of electric operations and there are no outstanding revenue bonds. The Gas Fund consists of natural gas operations, of which the revenues are pledged against revenue bonds. The Sanitation Fund consists of garbage collection and disposal and there are no outstanding revenue bonds.

Segment information for the Enterprise Funds for the year ended December 31, 2018 is not presented here since it is presented in the basic financial statements.

4-M. Commitment and Contingencies

Agreements with Municipal Electric Authority of Georgia

During 1976, the City, along with 45 other cities and one county, all political subdivisions of the State of Georgia, entered into a Power Sales Contract with the Municipal Electric Authority of Georgia, a public corporation and instrumentality of the State of Georgia.

Under the terms of the agreement, the Authority agrees to provide, and the Cities are obligated to purchase, all of the Cities’ bulk power supply requirements for a period not to exceed 50 years. The Cities have agreed to purchase all their future power and energy requirements in excess of that received by the Cities through the Southeastern Power Administration at prices intended to cover the operating costs of the systems and to retire any debt incurred by the Authority. In the event that revenues are insufficient to cover all costs and retire the outstanding debt, each City has guaranteed a portion of the unpaid debt based on their individual entitlement shares of the output and services of generating units acquired or constructed by the Authority. In addition, in the event of discontinued service to a participant in default, the City would be obligated to purchase additional power subject to contractual limitations.

At December 31, 2018, the outstanding debt of the Authority was approximately \$7.66.786 billion. The City’s guarantee varies by individual projects undertaken by the Authority and totals approximately \$30 million at December 31, 2018.

On January 1, 1999, the City approved a resolution adopting the provisions of the Municipal Competitive Trust (the “Trust”), which was created by MEAG for the mutual benefit of MEAG and its wholesale customers which have elected to become beneficiaries. The Trust was established to provide MEAG and the Trust’s beneficiaries a means to mitigate the expected differential between market rates for power and the costs of power generated by MEAG facilities, after deregulation of the electric industry.

The Trust created two types of funds, which are held by MEAG in the name of the City. The first type represents amounts that are available to the City for withdrawal without restriction. The second type represents amounts that are available to the City in the form of a loan or as an off-set to billings from MEAG for power usage if certain criteria related to the difference between the cost of power generated by MEAG facilities and the market rates for power are met.

At December 31, 2018, \$4,739,614 has been placed into the Trust for the benefit of the City, of which \$4,732,532 is available without restriction and \$7,082 is subject to restrictions. Of the \$4,732,532 approximately \$4,732,532 has been recognized as revenue for the years ended December 31, 2018 and prior. Due to the restricted nature of the \$7,082, the amount is not reported as deferred revenue at December 31, 2018, on the City financial statements.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

Pending Litigation or Overtly Threatened Litigation, Claims, or Assessments

The City is presently involved in a number of matters involving pending litigation, overtly threatened litigation, claims, or assessments. While the City intends to defend these actions, the ultimate outcome is uncertain at this time. The City's management and legal counsel are of the opinion that any unfavorable outcome would not materially affect the financial statements.

4-N. Joint Ventures

Under Georgia Law, the City, in conjunction with other Cities and Counties in the five county west Georgia area, is a member of the Chattahoochee-Flint Regional Development Commission (the "RDC") and is required to pay annual dues thereto.

Membership in an RDC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RDC in Georgia. The RDC Board Membership includes the Chief elected official of each county and municipality in the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RDC. Separate financial statements may be obtained from: Chattahoochee-Flint Regional Development Center, P.O. Box 1600, Franklin, Georgia 30217.

4-O. Related Organization

The City's Mayor is responsible for appointing all board members of the City of West Point Housing Authority. However, the City has no further accountability for the Authority.

4-P. Change in Accounting Principles/Restatement

The City implemented Governmental Accounting Standards Board (GASB) statement 68. Accounting and Financial Reporting for Pensions (an amendment to GASB Statement No. 27) in the fiscal year ending December 31, 2015. The implementation of the statement required the City to record beginning net pension liability and the effects on net position of contributions made by the City during the measurement period (fiscal year ending December 31, 2015).

Note 5 – Other Notes

5-A. Closure and Postclosure Care Requirements

GASB Statement No. 18, "Accounting for Municipal Solid Waste Landfill Closure and Postclosure Care Costs", require certain disclosures be reported relating to the closure and postclosure care.

The current estimated cost of postclosure is \$0.

The City owned and operated the city landfill until 1990. The landfill was closed in 1990 in order to meet the State of Georgia Solid Waste Reduction requirements. The solid waste disposal is conducted in the Sanitation Fund.

The estimated costs of postclosure are based on the landfill capacity used to date. The landfill capacity used to date is 100 percent. The estimated remaining landfill life is zero years. The current estimated postclosure costs recognized for the year ending are \$0.

The source of the estimated cost of postclosure care requirements are regulated by the Environmental Protection Division of the Environmental Protection Agency. The nature of the postclosure care requirements consist of well monitoring, laboratory analysis, and inspections. The estimated cost of postclosure varies due to environmental changes and requirements stipulated by the Environmental Protection Division. Requirements for post closure are fulfilled.

The City received postclosure certification from the State of Georgia and is not liable for future postclosure activities.

5-B. Risk Management

The City is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To manage and provide for these risks, the City carries commercial insurance coverage for these risks to the extent deemed prudent by City management. There was no significant reduction in insurance coverage during the year. Losses and settled claims have not exceeded insurance coverage in any of the past three fiscal years.

City of West Point, Georgia
Notes to the Basic Financial Statements
For the year ended December 31, 2018

The City participates in the Georgia Municipal Association Worker's Compensation Self Insurance Fund. The Fund was established to insure members for liabilities imposed under workers' compensation and employers' liability laws. The Fund is obligated to provide for the cost of claims and related interest incurred by the City under the Workers' Compensation Law of Georgia along with the cost of investigating, negotiation, and defending such claims. The Fund is intended to be self-sustaining through member premiums. Accordingly, the City is required to pay an annual premium to the Fund.

5-C. Contingent Liabilities

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the City believes such disallowances, if any, will be immaterial.

5-D. Subsequent Events

No significant subsequent events have been experienced by the City since the report date of the audited financial statements, May 22, 2019.

Independent Auditor's Report on Special County 1 Percent Sales and Use Tax Approved in special Election

Honorable Mayor and
Members of the City Council
West Point, Georgia

We have audited the accompanying Schedule of Special Purpose Local Option Sales Tax for the City of West Point, Georgia for the year ended December 31, 2018. This schedule is the responsibility of the City of West Point's management. Our responsibility is to express an opinion on the Schedule of Special Purpose Local Option Sales Tax based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Special Purpose Local Option Sales Tax is free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule of Special Purpose Local Option Sales Tax. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the Schedule of Special Purpose Local Option Sales Tax. We believe that our audit provides a reasonable basis for our opinion.

The accompanying Schedule of Special Purpose Local Option Sales Tax was prepared for the purpose of complying with the Official Code of Georgia Annotated, 48-8-121, on the modified accrual basis of accounting and is not intended to be a complete presentation of the City of West Point's revenues and expenditures.

In our opinion, the Schedule of Special Purpose of Local Option Sales Tax referred to above presents fairly, in all material respects, the original estimated cost, the current estimated costs, and the current and prior year expenditures for each project in the City of West Point's resolution or ordinance called for the tax for the year ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

**Report on Internal Control over Financial Reporting and on Compliance and
Other Matters based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

***(Material Weaknesses Identified; Significant Deficiencies Identified; and No Reportable
Instances of Noncompliance and Other Matters Identified)***

Honorable Mayor and
Members of the City Council
West Point, Georgia

We have audited in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activity, the aggregate discretely component units, each major fund, and the aggregate remaining fund information of the City of West Point (the “City”) as of and for the year ended December 31, 2018, and related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated May 22, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City’s internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the City’s financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did identify deficiencies in internal control that we consider to be material weaknesses as items 18-1 and 18-2 in the Report of Findings and Responses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of West Point's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective in our audit, and accordingly, we do not express such an opinion. The results of our tests did not disclose an instance of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
